

August 2021

Look at the birds of the air; they do not sow or reap or store away in barns, and yet your heavenly Father feeds them. Are you not much more valuable than they? Matt 6:26

The COVID pandemic in India resulted in many restrictions and extra burdens, one being no large group meeting. Because our children's home is large, we were temporarily forced to send back any child who has a family member alive, whether they could care for them or not. Once the restrictions are lifted, the children can return to our facility and continue to grow in a safe and healthy environment. What first appeared to be a devastating blow has become a blessing allowing us to reach into homes and villages in a more meaningful way. Each child still receives food, clothing, medical support, and pastoral care that has never changed. The greater blessing is the families who could not provide for their children before were reunited and received food and supplies to help them through these challenging times. I am happy to report...
NOT one child has become ill due to the COVID outbreak!

Over 100 families are now ministered to in a deep and meaningful way, something we found very difficult to accomplish before the government restriction. What appeared to have been a significant setback was flipped around, which God used to reach more people than we could have ever done before, please remember these families in your daily prayers. I take comfort in the following words and hope you do as well: "greater is He that is in you than he that is in the world" (1John 4:4).

House of Hope policy is to ensure that children benefit 100% from funds raised for them. However, we also need to raise our personal funds (a.k.a. missionary support). I would ask that you prayerfully remember us in your giving so we can continue the work the Lord has set before us.

Please cut and return bottom portion along with your donation.

Please make checks payable to **House of Hope**
